

# MASSAGE FOR HIM

Onlyfans like other adult platforms such as Pornhub and Xtube have recently changed their guidelines to ensure all the content featured on the site adheres to regulation worldwide. This now means everyone featured in a video on Onlyfans has to give consent to the platform to confirm they were happy to be featured. This information is only seen by them.

The registration and consent process is very straightforward and should only take you a few minutes.

1. Register your Onlyfans account here and pick a username that **isn't your real name** - <https://onlyfans.com/>

(If you already have a Onlyfans account and would prefer to have a different one separate to the film you're featured in anonymously, please start a new account using a different email)

2. In order to add your consent to your film, you will need to undergo their Ondato ID verification process - <https://onlyfans.com/my/banking/>
3. Once you've verified your ID, you will be all set up and I will be able to add your consent to the film and publish it on Onlyfans.

That's it! You're all done. Thank you.
